Rechargeable Battery Recycling Partnership a Success!

In 2010, the Association of New Jersey Household Hazardous Waste Coordinators (ANJHHWC) partnered with Call2Recycle® on a project aimed at increasing rechargeable battery recycling by 15 percent in 2010. Call2Recycle is the only free rechargeable battery and cell phone collection program in North America and it collects used rechargeable batteries and cell phones through a network of about 1,700 retailers, businesses and public agencies in New Jersey.

With the assistance of Call2Recycle, ANJHHWC embarked on a year long educational campaign to inform the public on the importance of recycling their rechargeable batteries. The following tasks were undertaken:

- Advertisements in three newspapers (Star Ledger, Atlantic City Press, Courier News) during Earth Week.
- Informational Brochure which can be found at: <http://njhazwaste.com/hot-topics/batteries/>
- Press release which can also be found at the above web address.
- Printed 600 posters which were distributed to all counties in the spring.
- Distributed postcards to all Counties in late July. Recommended that postcards be sent to one or more of the following - Municipal/County fire/police/OEM/EMS officials, large businesses, general contractors, and wireless communication stores. Provided a list of current RBRC locations.
- NJ Transit ads in buses across the State, light rail in Hudson, Bergen, Camden, Mercer, Essex, and the following train stations: Long Branch, Newark Penn, Rutherford, Ramsey, Morristown, Cranford, Westfield, Chatham, Middletown, Belmar, Edison, Morris Plains and Princeton Junction.
- Developed and distributed 30 and 60 second PSAs to 98 radio stations.
- Two week web banner ad campaign from September 13-27th on ALL News Sections in each county on www.nj.com; a total of 250,000 web impressions will be run during those two weeks. Visitors that click on the banner will be directed to the RBRC website.

ANJHHWC is pleased to announce that we exceeded the goal of a 15% increase in the recycling rate!

Rechargeable Battery Recycling went up by 22.5 % in 2010

2011 ANJHHWC Officers Elected

Elections took place at the April ANJHHWC meeting. JoAnn Gemenden and Diana Vigilante were elected for the positions of President and Vice President, and Chris Sikorski and Larry Gindoff were re-elected to their positions of Treasurer and Secretary.

Ms. Gemenden noted "I look forward to working in the coming year on many projects to benefit the Association and its members".

A special thanks to our outgoing officers, Ron Berenato and Rich Baroch for their service on behalf of the Association.
