Export Instructions for Delimited Data

1. Highlight and copy the header and all the delimited data in a particular section of a report (i.e. Participation Detail Delimited Data, Receipt Summary Delimited Data, etc.).
2. Create a new file in Notepad, paste the clipboard contents, and save the data as <filename>.txt.
3. Open Excel and choose File -> Open and in the file type dropdown, change the option to “All File Types” and find the .txt file you just created.
4. Excel will ask you in an import wizard how you want to import the data. You are importing fixed delimited data and the delimiter is a pipe “|”.
5. The data will be formatted automatically, although you can change the fields from numbers to text to dates or
